

CUSHION TRAX® ULTRA™

“THE NEXT GENERATION OF COMFORT”

Cushion Trax® Ultra™ is the ultimate high performance anti-fatigue floor mat, designed specifically to address the toughest requirements of today's industrial applications. At 3/4" Inch thick, Cushion Trax® Ultra™ is well suited for multi-shift operations in dry work areas where that little extra in comfort and support makes all the difference.

TRAX®
FLOOR MATTING

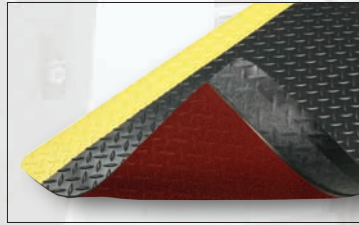

**100% RECYCLED
PVC TOP SURFACE**

**MADE IN THE
USA** 

ENGINEERED FOR THE ULTIMATE IN PERFORMANCE AND DURABILITY!

Cushion Trax® Ultra™ incorporates NoTrax® exclusive state-of-the-art manufacturing technologies:

RedStop™ is a uniquely engineered technology that eliminates the slipping and sliding of NoTrax® laminate floor mats on all types of smooth floor surfaces such as vinyl composite tile, painted or epoxy coated concrete, vinyl sheet flooring, carpet, and ceramic tile. RedStop™ provides increased friction between the underside of the mat and a clean, dry floor surface anchoring the mat in place, without leaving a tacky or sticky residue.

Uni FUSION™

UniFusion™ is a revolutionary bonding process that uses heat and pressure to fuse a floor matting top surface to a base material. The resulting finished product is virtually a single piece, eliminating any possibility of de-lamination. In fact, we're so confident in the UniFusion™ bond that we guarantee it... for life! (see warranty for details)

NOT ALL ANTI-FATIGUE APPLICATIONS ARE THE SAME...

Life would be much easier (and more productive) if all anti-fatigue requirements were the same for every application... they're not! Is the application wet or dry? Does the worker stand in one spot or move around? Is it a work-station environment or an assembly line? Is it a single or multi-shift application? The possibilities seem endless, even the size of the worker may change from shift to shift – the anti-fatigue requirements of a worker that weighs 150 lbs is much different than that of a worker that weighs 250 lbs.

Now you can choose your desired level of comfort with the complete Cushion Trax® lineup of floor matting products from NoTrax®.

THREE THICKNESSES:

- #479 Cushion Trax® - 9/16" Overall thickness
- #975 Cushion Trax® Ultra™ - 3/4" Overall thickness (NEW)
- #979 Saddle Trax™ - A full 1" thick

Actual size

ADDITIONAL SPECIFICATIONS:

- Durable vinyl diamond-plate design provides non-directional traction, and is easy to clean
- Sloped beveled edges to reduce tripping hazards and allow easy access on and off the mat
- **The vinyl top surface used for all Cushion Trax®/Saddle Trax™ products is made from 100% recycled PVC.**
- Stock Sizes: 2' x 3', 3' x 5', 3' x 12'
- Roll Sizes: 2' x 75', 3' x 75', 4' x 75'
- Custom widths available
- Colors: Black, Gray, Black/Yellow
